

HOW TO PUBLISH MY PERSONAL WEBSITE

By:
Web Team
University of Peradeniya

Open your browser and go to www.namecheap.com

The screenshot shows the Namecheap website homepage. At the top, there is a navigation bar with links for SUPPORT, SIGN IN, and SIGN UP. Below this, the Namecheap logo is on the left, and a series of service links (Domains, Hosting, WordPress, Email, Apps, Security, Transfer to Us, How To, Account) are on the right. A red callout box with the text "Hover on Account click on Dashboard" points to the "Account" link. A dropdown menu is open under "Account", showing options: Dashboard (highlighted with a red circle), Expiring Soon, Domain List, Product List, and Profile. The main content area has a dark blue background with the text "Bring your ideas to life" and buttons for "Register" and "Transfer". Below this is a search bar with the placeholder "Search domain names to start" and a "Beast mode" toggle. At the bottom, prices for ".COM" (\$8.88) and ".NET" (\$10.78) are displayed.

Help

Use the table below to manage verified owners of your properties or to add new properties to your account. Additional information about yo verified properties is available at [Search Console](#).

ADD A PROPERTY

Properties

ADD A PROPERTY

Enter the URL of the property that you'd like to verify.

Continue

Example: <http://www.example.com/>

Note - your ownership information will be stored and be visible to other owners (both current and future).

Recommended method

Alternate methods

History

Recommended: Domain name provider

Sign in to your domain name provider.

Namecheap.com

Click here and change to **other**

Follow the steps below to create a DNS (Domain Name System) record that proves to Google that you own this domain.

1. **Add** the TXT record below to the DNS configuration for `yourdomain.com`.

`google-site-verification=QeGh0eAl8FfoqAP`

2. Click **Verify** below.

When Google finds this DNS record, we'll make you a verified owner of the domain. (Note: DNS changes are made periodically.)

To stay verified, don't remove the DNS record, even after verification succeeds.

Note: adding this record won't affect your mail flow or any other feature in any way.

Having trouble? Contact your domain name provider directly for further assistance.

This verification is important to publish your google site via your custom domain

Now its time to publish your web site

Go to your google site (edited template) and click **Publish**

A screenshot of the Google Sites editor interface. At the top, a grey header bar contains the text 'Copy of Template' on the left and a series of icons on the right, including a 'Publish' button which is circled in red. The main content area shows a preview of a website with a green background and a circular profile picture of a woman. A white dialog box titled 'Publish to the web' is centered on the screen. It contains a 'Web address' field with the text 'hanikharatnayake', a 'Custom URL' section with a 'MANAGE' link circled in red, and a 'Who can view my site' section with a 'MANAGE' link. At the bottom of the dialog are 'Cancel' and 'Publish' buttons. A yellow text box is overlaid at the bottom left of the dialog.
